AMENDMENT "A"

S I R:

This Amendment "A" is filed in response to the Office Action of February 5, 2003.  
Please reconsider the application in view of the amendment and remarks presented below.

RECEIVED  
JUN 12 2003  
TECHNOLOGY CENTER 2800

IN THE SPECIFICATION

Please replace the Abstract of the Disclosure with the following replacement Abstract of the Disclosure:

A person authentication system, a person authentication method, an information processing apparatus, and a program providing medium authenticate a person who uses an information apparatus in data communication. A person authentication certificate storing a template which includes person authentication data is used in the person authentication system. A person authentication execution entity checks the validity of the certificate on the basis of a certificate expiration date, a certificate usage number limit, or a template expiration date in person authentication processing on the basis of the certificate. The person authentication is executed by comparing the template with sampling information input by a user if the validity is confirmed. A person identification certificate authority updates the certificate or the template according to the request of the entity or the authenticated person.--
